

Discontinuation of the Annual Invisalign 10 CE Requirement

In an effort to be responsive to the needs and feedback of our valued doctors, we are announcing the discontinuation of the annual 10 CE requirement for Invisalign providers.

While most clinicians believe that our training has been extremely valuable in helping to improve their clinical skills, doctors have told us that they want to make their own decisions on how much and what type of continuing education is right for them. We know that the best way to meet this need is to continue to create excellent continuing education programs, when you want and where you want.

We will continue to improve our award-winning CE, and provide a wide variety of courses that offer CE hours, including 200+ hours of free online training and 100+ live courses each year.

Continuing education will not be used as criteria in the Advantage Program or the Invisalign.com Find a Doctor feature.

Nothing is more important to us than your trust and loyalty. We will continue to introduce new innovations—like Invisalign G3—and continuing education that will help you to deliver the best clinical outcomes for your patients.
