

5

Treat More Patients who need minor tooth movements.

Invisalign Express 5

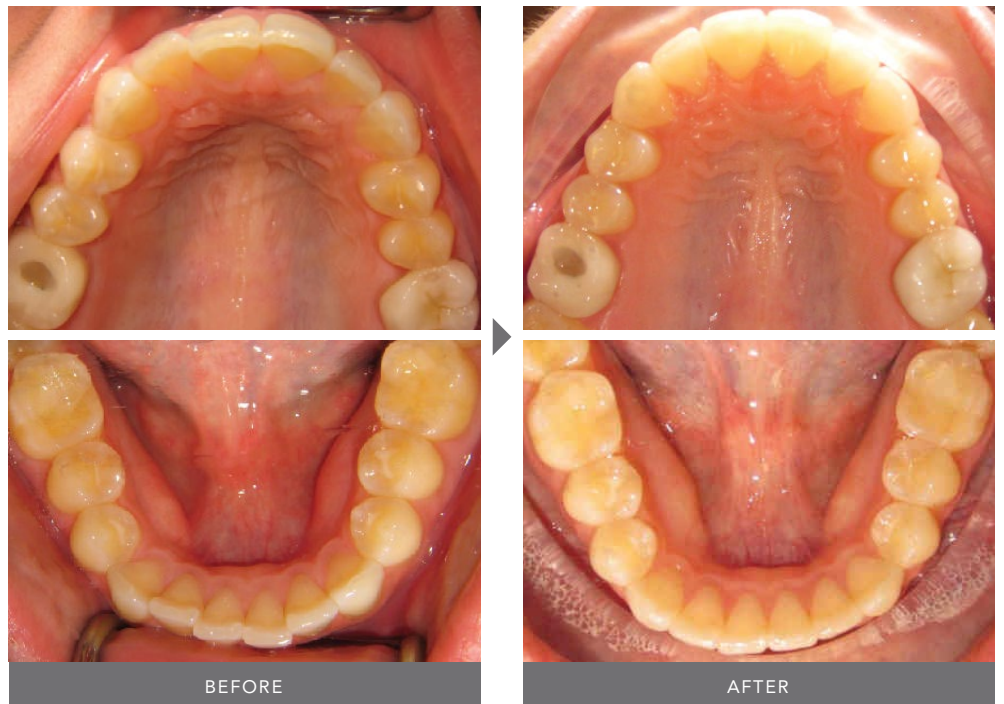

Grow your practice

Your patients with minor orthodontic issues, such as very mild spacing, crowding, and orthodontic relapse, can now get the smile they want at a price they can afford.

Introducing Invisalign Express 5, aligner therapy designed to treat very minor tooth movement in 5 stages or less.

Invisalign Express 5

Invisalign Express 5 offers the same high-quality Invisalign features you expect. A \$549 lab fee enables you to offer treatment at a price patients will accept.

- ClinCheck® treatment plan allows 3-D virtual representation of the desired result and required aligner stages.
- Includes SmartForce® attachments and aligner features engineered to deliver the force systems to achieve predictable tooth movements.
- A refinement of up to five aligners is available to achieve final position as defined in the original ClinCheck treatment plan for \$125.
